

# ALL PURPOSE DESCALER

**Our All Purpose Descaler is a liquid concentrate designed to descale and sanitise appliances by removing limescale and mould. It improves the performance of appliances and reduces breakdowns. Ideal for Coffee Machines, Jugs, Steam Irons, Dishwashers, and more.**

Limescale, mineral deposits and mould build up on appliances that use water. This build-up is worse if you have hard water as it contains a high mineral content. Some traditional methods can take much longer to achieve results and are unsuitable for some appliances. It is not advisable to use harsh acids, like sulphuric acid, which is hazardous, poisonous and can corrode some surfaces.
