

| SECTION 1 – PRODUCT IDENTIFICATION |  |                  |                      |
|------------------------------------|--|------------------|----------------------|
| Product Name:                      | "PURACHOICE" BATHROOM CLEANER            |                  |                      |
| Distributor:                       | Rubbedin Pty Ltd                         | Rubbedin Pty Ltd |                      |
| Address:                           | Unit 1/43 Neumann Road Capalaba QLD 4157 |                  |                      |
| Regular Phone No:                  | (07) 3245 3255                           | FAX:             | (07) 3245 2554       |
| <b>Emergency Phone No:</b>         | 0405358685                               | Email:           | info@rubbedin.com.au |
| Substance:                         | Water based liquid                       | Product Use:     | Cleaning product     |
| Product Code:                      | 66-500 PCB                               |                  |                      |

| SECTION 2 – HAZARDS IDE                    | NTIFICATION  |  |  |
|--|--|--|--|
| Classification of the substance or mixture |  |  |  |
| Poisons Schedule                           | Not scheduled.   |  |  |
| Dangerous Goods                            | Not classified as Dangerous Goods according to the Australian Code for the Transport of        |  |  |
|  | Dangerous Goods by Road and Rail.  |  |  |
| GHS Classification                         | Classified as Hazardous according to the Globally Harmonised System of Classification and      |  |  |
|  | labelling of Chemicals (GHS) including Work, Health and Safety regulations, Australia.         |  |  |
|  | Eye Irritation Category 2A   |  |  |
| Label elements                             |  |  |  |
| GHS label pictograms                       | GHS 07   |  |  |
| Signal word                                | WARNING  |  |  |
| Hazard statement(s)                        |  |  |  |
| H319                                       | Causes serious eye irritation.   |  |  |
|  | Precautionary statement(s): General  |  |  |
| P102                                       | Keep out of reach of children.   |  |  |
| P103                                       | Read label before use.   |  |  |
| Precautionary statement(s)                 |  |  |  |
| P264                                       | Wash hands and skin thoroughly after handling.   |  |  |
| P280                                       | Wear eye protection/face protection.   |  |  |
| Precautionary statement(s)                 | ·  |  |  |
| P305+P351+P338                             | IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present |  |  |
|  | and easy to do. Continue rinsing.  |  |  |
| P337 + P313                                | If eye irritation persists: Get medical advice/attention.                                      |  |  |
| Precautionary statement(s)                 | -  |  |  |
|  | None allocated.  |  |  |
| Precautionary statement(s)                 | •  |  |  |
|  | None allocated.  |  |  |
| Note                                       |  |  |  |
| IMPORTANT                                  | This SDS and the Hazard Classifications contained therein, only apply to the product in its    |  |  |
|  | concentrated form, as supplied.  |  |  |
|  | When diluted to 1:3 or greater with water, the resulting solution is classified as non-        |  |  |
|  | hazardous.   |  |  |
|  | However, good hygiene and housekeeping practices should be adhered to.                         |  |  |

| SECTION 3 – INGREDIENTS |             |             |
|-------------------------|-------------|-------------|
| Ingredients:            | CAS Number: | Proportion: |
| Lactic acid             | 50-21-5     | <10% w/w    |

| D-Glucopyranose, oligomers, decyl octyl glycosides                    | 68515-73-1  | <10% w/w     |
|---|-------------|--------------|
| Alkylpolyglycoside C10-16 Lauryl glucoside                            | 110615-47-9 | <10% w/w     |
| Ingredients determined to be non-hazardous at the concentrations used | Various     | to 100 % w/w |

NOTE: Ingredients determined not to be hazardous are present in concentrations that do not exceed the relevant cut-off concentrations as found from NOHSC publication "List of Designated Hazardous Substances" or have been found NOT to meet the criteria of a hazardous substance as defined in the NOHSC publication "Approved Criteria for Classifying Hazardous Substances", or have been found NOT to meet the criteria of a dangerous substance as defined in the GLOBALLY HARMONIZED SYSTEM OF CLASSIFICATION AND LABELLING OF CHEMICALS (GHS), 4th edition United Nations 2011. Listed ingredients may be below the cut-off concentrations for classification as hazardous, but are listed for information purposes and for additive effects.

| SECTION 4 - EMERGENCY AND FIRST AID PROCEDURES |  |  |
|--|--|--|
| Scheduled Poisons                              | Poisons Information Centre in each Australian State capital city or in Christchurch, New Zealand can provide additional assistance for scheduled poisons. (Phone Australia 131126 or New Zealand 0800 764 766).  |  |
| First Aid Facilities                           | Normal washroom facilities.  |  |
| Skin contact                                   | Wash skin with plenty of water. Remove contaminated clothing and wash before re-use. Seek medical advice (e.g. doctor) if irritation, burning or redness develops.   |  |
| Eye contact                                    | Immediately irrigate with water for at least 20 minutes. Eyelids to be held open. Seek medical advice (e.g. ophthalmologist) if any irritation persists.   |  |
| Ingestion                                      | Do NOT induce vomiting. Rinse mouth thoroughly with water immediately. Give water to drink. If vomiting occurs, give further water to achieve effective dilution. Seek medical advice (e.g. doctor).   |  |
| Inhalation                                     | Remove victim to fresh air away from exposure - avoid becoming a casualty. Seek medical advice (e.g. doctor) if symptoms persist.  |  |
| Advice to Doctor                               | Treat symptomatically. All treatments should be based on observed signs and symptoms of distress of the patient. Poisons Information Centre in each Australian State capital city or in Christchurch, New Zealand can provide additional assistance for scheduled poisons. |  |
| Aggravated Medical Conditions                  | None known.  |  |

| SECTION 5 – FIRE FIGHTING MEASURES |  |  |
|------------------------------------|--|--|
| Fire and Explosion                 |  |  |
| Hazards                            | Not combustible. However, if involved in a fire will emit toxic fumes.                     |  |
| <b>Extinguishing Media</b>         | Use an extinguishing media suitable for surrounding fires.                                 |  |
| Fire Fighting                      | Keep containers exposed to extreme heat cool with water spray. Fire fighters to wear self- |  |
|                                    | contained breathing apparatus if risk of exposure to products of combustion or             |  |
|                                    | decomposition. Evacuate area - move upwind of fire.  |  |
| Flash Point                        | None – does not support combustion.  |  |

| SECTION 6 – ACCIDENTAL R    | SECTION 6 – ACCIDENTAL RELEASE MEASURES   |  |
|-----------------------------|---|--|
| <b>Emergency Procedures</b> | No HAZCHEM code.  |  |
| Occupational Release        | Minor spills do not normally need any special clean-up measures. Rinse well. In the event of a major spill, prevent spillage from entering drains or water courses. Wear appropriate personal protective equipment and clothing to prevent exposure. Increase ventilation. As a water based product, if spilt on electrical equipment the product will cause short-circuits. If possible contain the spill. Place inert absorbent material onto spillage. Collect the material and place into a suitable labelled container. Dispose of waste according to the applicable local and national regulations. |  |
|                             | If contamination of sewers or waterways occurs inform the local water and waste management authorities in accordance with local regulations.  |  |

#### **SECTION 7 – HANDLING AND STORAGE**

ISSUE DATE: 17th August 2021

| Handling | Avoid contact with incompatible materials. When handling, DO NOT eat, drink or smoke. Keep containers closed at all times. Avoid physical damage to containers. Always wash hands with water after handling.                   |
|----------|--|
| Storage  | Store in a cool, dry, place with good ventilation. Avoid storing in aluminum and light alloy containers. Store away from incompatible materials (Section 10). Keep containers closed at all times – check regularly for leaks. |

| SECTION 8 – EXPOSURE COI    | NTROLS AND PERSONAL PROTECTION  |  |
|-----------------------------|---|--|
| Exposure Limits             | National Occupational Exposure Limits, as published by Safe Work Australia:   |  |
|                             | Time-weighted Average (TWA): None established for specific product.   |  |
|                             | Short Term Exposure Limit (STEL): None established for specific product.  |  |
| <b>Engineering Controls</b> | No special requirements.  |  |
| Personal Protective         | Use good occupational work practice. The use of protective clothing and equipment depends   |  |
| Equipment                   | upon the degree and nature of exposure. Final choice of appropriate protection will vary according to individual circumstances i.e. methods of handling or engineering controls and according to risk assessments undertaken. The following protective equipment should be available;                                       |  |
| Eye Protection              | Generally, not required to handle as per label directions.  The use of safety glasses with side shield protection, goggles or face shield is recommended to handle in quantity, cleaning up spills, decanting, etc. Contact lenses pose a special hazard; soft lenses may absorb irritants and all lenses concentrate them. |  |
| Skin Protection             | Generally, not required to handle as per label directions —wear gloves for sensitive skin.  Overalls, work boots and elbow length gloves are recommended for handling the concentrated product (as per AS/NZS 2161, or as recommended by supplier) to handle in quantity, cleaning up spills, decanting, etc.               |  |
| Protective Material Types   | Material suitable for detergent contact – Butyl rubber, Natural Latex, Neoprene, PVC, and Nitrile.  |  |
| Respirator                  | Generally, not required to handle as per label directions.  |  |

| SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES |                             |                          |                     |
|--|-----------------------------|--------------------------|---------------------|
| Physical State                               | Liquid                      | Colour                   | Straw               |
| Odour  | Fragrant odour              | Specific Gravity         | 1.00 – 1.05 @ 25 °C |
| <b>Boiling Point</b>                         | Approximately 100 °C        | Freezing Point           | Approximately 0 °C  |
| Vapour Pressure                              | Not available               | Vapour Density           | Not available       |
| Flash Point                                  | Not flammable               | Flammable Limits         | None                |
| Water Solubility                             | Miscible in all proportions | рН                       | 2.5 – 3.5 neat      |
| Volatile Organic                             |                             | Coefficient of Water/Oil |                     |
| Compounds (VOC)                              | 0 % v/v                     | Distribution             | Not available       |
| Viscosity                                    | Not available               | Odour Threshold          | Not available       |
| <b>Evaporation Rate</b>                      | Not available               | Per Cent Volatile        | Ca 95 % v/v         |

| SECTION 10 – STABILITY AND REACTIVITY |  |
|---------------------------------------|--|
| Chemical Stability                    | Stable at normal temperatures and pressure.  |
| Conditions to Avoid                   | Avoid contact with flames, heat or hot sources.  |
| Incompatible Materials                | Oxidising agents.  |
| Hazardous                             | Product can decompose on combustion (burning) to form Carbon Monoxide, Carbon Dioxide, |
| Decomposition                         | and other possibly toxic gases and vapours.  |
| Hazardous Reactions                   | None known.  |

#### **SECTION 11 – TOXICOLOGICAL INFORMATION**

### "PURACHOICE" BATHROOM CLEANER

| No adverse health effects expected if the product is handled in accordance with this Safety Data Sheet and the product label. Symptoms or effects that may arise if the product is mishandled and overexposure occurs are:  Ingestion  short term exposure  Ingestion of this product may cause nausea, vomiting, abdominal pain and irritation to the mouth, throat and stomach. Oral Toxicity (ATE calculated): LD50 >10,000mg/kg.  Iong term exposure  No information available.  Skin contact  short term exposure  Prolonged and repeated skin contact with concentrate may cause redness, itching, irritation.  Iong term exposure  Concentrated product causes eye irritation. Eye contact with concentrate will cause stinging, blurring, tearing.  Iong term exposure  Inhalation  short term exposure  Inhalation of mists or aerosols may produce mucous membrane and respiratory irritation.  Iong term exposure  Inhalation of mists or aerosols may produce mucous membrane and respiratory irritation.  Iong term exposure  No information available.  Carcinogen Status  SWA  No significant ingredient is classified as carcinogenic by SWA.  NTP  No significant ingredient is classified as carcinogenic by NTP.  IARC  No significant ingredient is classified as carcinogenic by IARC.  Respiratory Sensitisation  Not expected to be a respiratory sensitizer.  Germ cell mutagenicity  Not considered to be a mutagenic hazard.  Reproductive Toxicity  Not considered to be a matagenic hazard.  Reproductive Toxicity  Not expected to cause toxicity to a specific target organ.  STOT-repeated exposure  Not expected to be an aspiration hazard.  Not expected to be an aspiration hazard. | POTENTIAL HEALTH EFFECTS   |  |  |
|--|--|--|--|
| Ingestion short term exposure Ingestion of this product may cause nausea, vomiting, abdominal pain and irritation to the mouth, throat and stomach. Oral Toxicity (ATE calculated): LD50 >10,000mg/kg.  No information available.  Skin contact short term exposure Not expected to be a skin irritant. Prolonged skin contact with concentrate may cause redness, itching, irritation.  Iong term exposure Prolonged and repeated skin contact with undiluted solutions may induce eczematoid dermatitis.  Eye contact short term exposure Source term exposure No information available. Inhalation short term exposure Inhalation of mists or aerosols may produce mucous membrane and respiratory irritation. Iong term exposure No information available. Carcinogen Status  SWA No significant ingredient is classified as carcinogenic by SWA.  NTP No significant ingredient is classified as carcinogenic by NTP. IARC No significant ingredient is classified as carcinogenic by IARC. Respiratory Sensitisation Not expected to be a respiratory sensitizer.  Skin Sensitisation Not expected to be a skin sensitizer.  Germ cell mutagenicity Not considered to be a mutagenic hazard. Reproductive Toxicity Not expected to cause toxicity to a specific target organ. | Aspiration Hazard Not expected to be an aspiration hazard.   | STOT-repeated exposure   | Not expected to cause toxicity to a specific target organ.                                 |  |
|  | Aspiration Hazard  | Not expected to be an aspiration hazard.   |  |

| SECTION 12 – ECOLOGICAL INFORMATION |  |  |  |  |
|-------------------------------------|--|--|--|--|
| Acute Aquatic Toxicity              | Acute Aquatic Toxicity Category 3  |  |  |  |
| Product (as sold)                   | H402 - harmful to aquatic life. LC50 > 10mg/L, but <100mg/L.   |  |  |  |
|                                     | Acute Aquatic Toxicity (ATE Calculated) LC50: 55 - 350 mg/L.   |  |  |  |
| Acute Aquatic Toxicity              | Acute Aquatic Toxicity NOT HAZARDOUS   |  |  |  |
| Product (rinsed at 1:100)           | Not harmful to aquatic life. LC50 > 100mg/L.   |  |  |  |
|                                     | Acute Aquatic Toxicity (ATE Calculated) LC50: 5500 - 35000 mg/L.   |  |  |  |
| Persistence and                     | Individual components have been specifically included in this product because they are   |  |  |  |
| degradability                       | known to be readily biodegradable and of low toxicity to fish and other aquatic organisms.   |  |  |  |
| Bio accumulative potential          | No bioaccumulation is expected.  |  |  |  |
| Mobility in soil                    | Due to its physico-chemical characteristics, highly mobile in the environment and will partition to the aquatic compartment.   |  |  |  |
| Other adverse effects               | None available for specific product.   |  |  |  |
| Environmental Protection            | Expected to be harmful to aquatic species due to low pH. Product miscible in all proportions with water. As with any chemical product, do not discharge BULK quantities into drains, waterways, sewer or environment. Inform local authorities if this occurs. |  |  |  |

#### **SECTION 13 – DISPOSAL CONSIDERATIONS**

| Disposal | Dispose of material according to Local Authority Regulations or through a licensed waste |  |
|----------|--|--|
|          | contractor.  |  |

| SECTION 14 – TRANSPORT INFORMATION |                |                     |                |  |
|------------------------------------|----------------|---------------------|----------------|--|
| Labels Required                    |                |                     |                |  |
| ADG                                | none allocated |                     |                |  |
| IMDG Marine Pollutant              | No             |                     |                |  |
| Land Transport (ADG)               |                |                     |                |  |
| UN Number                          | none allocated | ADG Classification  | none allocated |  |
| Shipping Name                      | none allocated | ADG Subsidiary Risk | none allocated |  |
| Hazchem Code                       | none allocated | Packing Group       | none allocated |  |
| Segregation                        | none allocated |                     |                |  |

| SECTION 15 – REGULATORY INFORMATION |  |  |
|-------------------------------------|--|--|
| GHS Classification                  | This product is classified as Hazardous according to the Globally Harmonised System of Classification and labelling of Chemicals (GHS) including Work, Health and Safety regulations, Australia. |  |
| SUSMP                               | This product is <b>NOT classified as a Scheduled Poison</b> according to the SUSMP   |  |
| ADG Code                            | This product is <b>NOT classified as Dangerous Goods</b> according to the Australian Dangerous Goods Code.   |  |
| AICS                                | All ingredients present on AICS.   |  |

| SECTION 16 – OTHER INFORMATION |   |  |
|--------------------------------|---|--|
| Issue Date                     | 17 <sup>th</sup> August 2021  |  |
| Version Number                 | V 1.1 First Issue to <b>GHS7</b> .  |  |

Australian Code For The Transport Of Dangerous Goods By Road And Rail

Standard for the Uniform Scheduling of Medicines and Poisons

Material Safety Data Sheets - individual raw materials - Suppliers

HSIS – Hazardous Substance Information System – National Safe Work Australia Data Base.

HCIS – Hazardous Chemical Information System – National Safe Work Australia Data Base.

ECHA - European Chemicals Agency.

This SDS summarizes at the date of issue our best knowledge of the health and safety hazard information of this product, and in particular how to safely handle and use this product in the workplace. Since the supplier cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, review this SDS in the context of how the user intends to handle and use the product in the workplace. If clarification or further information is needed to ensure that an appropriate assessment can be made, the user should contact this supplier.

The SDS is valid for five years from date of issue but may be withdrawn and revised at any time prior to that date. All information contained in the Data Sheet is as accurate as possible at the time of issue. It is meant to describe the safety requirements of our products and should not be construed as guaranteeing specific properties. No expressed or implied warranties nor any responsibility for damages resulting from use of the information are given other than those implied mandatory by Commonwealth, State or Territory Legislation. If this product is to be re-packaged by others, it will be necessary for a new SDS to be generated by the re-packer.
